

Supporting Post-16

GCSE Resit

Maths Hubs Network Collaborative Projects 2020/21

NCP 20-19

DATES

Session	Date
1	Wed - 24 February 2021
2	Wed - 17 March 2021
3	Wed - 28 April 2021
4	Wed - 26 May 2021
5	Wed - 16 June 2021

All sessions are twilights and have been designed to take place online allowing greater flexibility for staff with no travel commitments.

Times: 4pm – 6pm

HOW TO APPLY

Please complete the [online booking form](#) to secure a place or contact admin@london southwestmathshub.co.uk

Information for our Work Groups and events in 2020-21 can be found on our website www.london southwestmathshub.co.uk

DETAILS

Work Groups in this project will explore effective ways of teaching key content to GCSE resit students, and working with teachers of post-16 resit GCSE. Participants will, through collaboration and experimentation, deepen their knowledge and understanding of the curriculum demands of GCSE Maths and their awareness of pedagogical approaches that best support students taking GCSE for the second time.

Participants' departments will, through shared good practice, become more effective at teaching GCSE resit, for example by wider and more confident use of teaching approaches such as bar modelling, multiplicative reasoning or realistic contextualisation. Work Group activity will also be influenced by understanding the unfolding support that will be required for transition to the post-16 environment with awarded grades rather than exam results.

Who can apply?

This project is for teachers of post-16 GCSE Maths resit and/or any head of department where post-16 GCSE Maths resit is taught. Participants may be based in FE colleges, sixth form colleges, schools with post-16 provision or other post-16 settings.

Important information for potential participants:

The Education and Training Foundation has confirmed that all Centres for Excellence (CfE) and their network institutions who are involved in the national trials being run by the CfE can now be involved in this Work Group at an institutional level, as long as the individual trial teachers are not participating in the Work Group nor its associated work in their department.

BENEFITS

Participants and their schools will

- ✓ improve their awareness of key concepts and themes relevant to the context of GCSE resit
- ✓ increase their awareness of appropriate pedagogies to help students make connections and deepen understanding
- ✓ share approaches to planning and delivery of key concepts with the Work Group and with departmental colleagues
- ✓ develop teaching and learning approaches and pedagogy to promote engagement of students
- ✓ work towards increased localised support and collaboration between 11-16 schools, FE colleges, sixth form colleges and 11-18 schools

Covid Recovery

Maths Hubs activity will be flexible and adapt to changing realities. All workshop sessions are online, until at least February 2021, with online collaboration opportunities in between sessions.

What is the cost?

The Post 16 GCSE Resit Work Group is **fully funded** by the Maths Hubs Programme so is **free** to participating schools.
